

MOREY'S® DIESEL SMOKE KILLER

MOREY'S® DIESEL SMOKE KILLER is a premium diesel fuel conditioner designed to reduce diesel smoke, improve fuel injection, provide anti-wear, enhance fuel economy, and ensure engine cleanliness and fuel stability. Also contains biocidal properties.

Morey's Diesel Smoke Killer is designed for use in diesel fuel at a recommended treatment level of 650:1.

Features:

Most effective under loaded conditions and in engines that are in a good state of repair.

- Cleans dirty injectors and keeps them clean for a better running engine.
- Contains biocidal properties.
- Increases horsepower up to 10%.
- Increase cetane up to five (5) points.
- Improves fuel economy to more than pay for itself.
- Reduces exhaust emissions and smoke.
- Reduces injector scuffing, increase fuel system life.
- Reduces rust and corrosion.
- Makes fuel filters last longer.
- Does not raise sulphur or aromatic content.
- Keeps seals soft and pliable.
- Fights diesel bug.
- Provides lubricity in fuel pumps related to low sulphur fuels.
- Suitable for common rail diesels and/or diesels fitted with a Diesel Particulate Filter.

Usage:

Economical: 30mls treats 20 litres of diesel fuel.

Bulk Storage Tanks: For uniform mixing add required amount to tank before filling.

- Recommended for diesel engines subjected to heavy work loads and long hours of operation.
- Use full time for maximum benefit.
- Use every 4th-5th tank full for preventative maintenance.
