

# MOREY'S HUB OIL LUBRICANT

MOREY'S HUB OIL LUBRICANT is the perfect blend of specialty oils & oil conditioners to improve the life of your trailer hubs, boat hubs & steering axles. Reducing seal leaks, oil loss and lowering temperature, prolong bearing life, extends wear life, new seals stay newer for longer, rejuvenate older seals.

As trailer, boat hubs & steering axles hold minimal amounts of oil, the oil tends to burn quickly, burnt oil hardens seals, hardened seals will then crack and leak. Leaking hubs can end up in costly repairs, damaged bearings & damaged axles.

The use of Morey's Hub Oil Lubricant can assist in preventing this as the Hub Oil Lubricant allows hubs to run cooler, smoother & lubricated better.

## Typical Uses:

- Trailer Hubs
- Boat Hubs
- Steering Axles

## Features:

- Reduces seal leaks
- Reduces oil loss
- Reduces temperature
- Prolongs bearing life
- Extends wear life

## Typical Properties:

Odour:	Petroleum
Appearance:	Amber Oily Liquid
Flash Point:	>202 °C
Relative Density:	0.8867

Values shown here are typical and may vary.
