AUGUST 2017

# 001021-PU 10L Oil Container Pump Kit

Oil contamination is a leading cause of machinery failure by directly impairing the lubricant's ability to control friction, wear and corrosion. The 001021-PU iCan™ 10L oil container pump kit reduces the chance of lubricant cross contamination and subsequently machinery failure. The quick fill port helps to minimise foreign particle ingress during container refilling and the threaded port on the lids provides the option to add a desiccant filter for added protection.

The square base on the 001021-PU iCan™ 10L oil container results in greater stability and the unique colour coding enables quick and easy lubricant identification.

iCan™ HDPE lids and containers won't rust, warp, distort or break and therefore are a must for people who see value in operating and presenting a modern, professional and organised workshop.

The piston style T-handle pump facilitates fast and efficient lubricant dispensing and incorporates a non-drip drain back nozzle holder and filter to minimise potential contamination.

The 001021-PU iCan™ 10L oil container pump kit helps to deliver best practice lubricant storage, identification and dispensing processes for a variety of HDPE compatible lubricants, fluids and coolants.

Included with the 001021-PU iCan™ 10L oil container pump kit is a clear plastic iPouch containing a set of 5 double sided colour coded iCards to assist in the easy identification of lubricants.

### PRODUCT SPECIFICATIONS, FEATURES AND BENEFITS

- Manufactured in high-density HDPE
- Sturdy hand pump for fast dispensing
- Stores lubricants safely, can also handle Coolants
- Prevents cross contamination
- Colour code labelling system for easy lubricant identification
- Suitable for use with a variety of lubricants, fluids and coolants
- iPouch holds and stores important documents on container
- Quick fill port for safe contaminant free refills
- Desiccant port for added optional protection
- Large flat square base surface for stability and easy iPouch labelling for MSDS documents
- Quick changing colour coding handles and bands means no more stocking of specific coloured pour lids saving time and money

iCards

001120 & 001137 iPouch
