## 220A 400g Trigger Action Grease Gun

December 2021 Update

**The 220A Trigger Action Grease Gun manufactured in Germany, is a cost effective alternative for intermittent, periodic and specialised greasing, in particular when using more expensive grease typically used for lubricating food grade equipment and for critical grease points.**

A light weight die-cast aluminium head assembly and a slip-type pressure/volume adjustment which changes the gun from high pressure to high volume design are just two user friendly features of the 220A Trigger Action Grease Gun which is suitable for use with both 400g cartridges, filler pump and bulk grease.

Featuring the unique Ever Flow System enabling the use of thick/tacky greases even at low temperatures and unique Twin Lock System, the German engineered & manufactured 220A Trigger Action Grease Gun is a dependable and proven performer.

Use safety goggles and gloves when operating this grease gun to avoid personal injury.

**General warning:**

Do not use a high pressure grease fitting as a loader fitting. Excessive pressure can cause personal injury and damage to your valuable equipment.

**SPECIFICATIONS, FEATURES AND BENEFITS**

- Develops grease pressures up to 8,500psi (586bar)
- 1.10g delivery per stroke on the high volume setting
- 0.70g delivery per stroke on the high pressure setting
- Twin Lock System seals the piston and eliminates the possibility of dummy lubrication
- 500g capacity when using bulk grease
- Capable of dispensing greases up to NLGI3
- Three way loading
- 300mm long grease gun flex
- Heavy duty four jaw coupler
- High volume/high pressure option facilitates fast and efficient greasing
- Coarse thread on barrel eliminates the chance of cross threading
