## 619032 Automatic Shut Off AdBlue® Nozzle

February 2021

**The Alemlube 619032 Automatic Shut Off AdBlue® Nozzle is suitable for the transfer of AdBlue® and automatically shuts off to stop dispensing when a tank is full.**

Capable of delivering up to 70 litres per minute, the Alemlube 619032 Automatic Shut Off AdBlue® Nozzle is manufactured with a stainless steel body encased in a rubber shroud for durability and protection.

The 619032 trigger features a locking device to help protect against accidental AdBlue® dispensing.

When topping up AdBlue® in your dump truck in Kalgoorlie, your header in Wellington or your Kenworth in Rockhampton you can rely on the Alemlube 619032 Automatic Shut Off AdBlue® Nozzle to get the job done.
