

7701A

## Multi Purpose Top Up Kit

April 2020

**The 7701A Multi Purpose Top Up Kit is ideal for topping up difficult to access oiling and fluid points in the workshop and around the home.**

Suitable for use with all hydraulic, gear and engine oils, the 7701A available from Alemlube is also suitable for automatic transmission fluids and some hand cleaners and sanitisers.

The 7701A is typically used for topping up outboard and two stroke motors, chainsaws, ride on mowers and motor vehicles.

Robustly constructed, the kit includes a 1L capacity plastic container, aluminium hand pump with nylon head and push handle, aluminium spout, 500mm long PVC hose and built in drain back holder.

Capable of dispensing 10mL per stroke, the kit bottle features a 1-1/2" opening facilitating ease of refilling and being self contained the unit prevents oil contamination when not in use.
