

8828N2

20L Gear Oil Drum Pump

June 2021

The 8828N2 20L gear oil pump is capable of delivering up to 110mL of oil per stroke and comes complete with a Reike adaptor & downtube extension allowing it to be used with 20L plastic drums.

High quality components and smooth pump action make the 8828N2 the ideal pump for the transfer of engine, gear, diff and hydraulic oils in vehicle servicing workshops of all kinds.

The drainback nozzle holster which ensures that excess oil returns to the drum and not on the workshop floor, now incorporates a filter to protect the oil from particle contamination.

The combination of these major advances, the easy pump action delivering lubricant on the down stroke and the UV stabilised long life hose results in a gear oil pump function and features ensuring a long service life.

SPECIFICATIONS, FEATURES AND BENEFITS

- Delivers up to 110mL per stroke
- Downtube extension and extra Reike adaptor make the pump suitable for use with a variety of 20L drums available on the market
- Ideal pump for the transfer of engine, gear, diff & hydraulic oils in busy vehicle servicing workshops
- Drainback nozzle holster ensures that excess oil ends up back in the drum
- Incorporates a filter in the drain back holster to protect against foreign particle contamination
- UV stabilised long life hose ensures a long service life
