

G100120 20kg Grease Kit

March 2019

The Alemlube EL Series G100120 20kg Grease Kit is ideal for use with all grease types up to NLGI2 and has been engineered and manufactured using high quality materials ensuring a long and reliable working life.

The 50:1 ratio pump delivers up to 600g/min and is suitable for use with 20kg grease drums.

The grease control valve operates with a maximum pressure of 5,800psi (400bar) and connects to the grease hose via the 1/4" quick plug.

The G100120 50:1 20kg Grease Kit is a real value for money proposition and gives you an opportunity to upgrade from manual greasing to an efficient and effortless pneumatic greasing solution.

Furthermore, should the need ever arise, spare parts are readily available upon request and our own factory trained technicians are available to provide after sales service support.

The G100120 20Kg Grease Kit is ideal for small to medium size workshops undertaking grease lubrication/greasing intermittently or seasonally.

SPECIFICATIONS, FEATURES AND BENEFITS

- Effortless greasing
- Heavy duty grease control valve
- 4m long hose assembly
- Affordable and robust
- Delivers up to 600g/min
- Tested to up to 24,000kg
- Maximum fluid pressure of 5,800psi (400bar)
- All types of grease up to NLGI2
- Air consumption of 3.6cfm at 150psi
- Air inlet pressure from 70psi (5bar) to 150psi (10bar)
- Noise level of 82dB
- Low cost of ownership
- Spare parts readily available
