

G10040N

18V Lithium-ion Cordless Grease Gun

October 2019

The Alemlube EL Series G10040N 18V Lithium-ion cordless grease gun takes the hard work out of greasing.

A must for any busy workshop the Alemlube EL Series G10040N can dispense up to twelve 450 gram cartridges of grease using the 3000 mAh battery before recharging or battery changeover.

It is advisable not to recharge the 1500 mAh battery for longer than 75 minutes, or the 3000 mAh battery for longer than 150 minutes, otherwise damage to the battery and /or charger may occur.

Weighing in at 4kg, the Alemlube EL Series G10040N features a 1/8" NPT 106cm long grease gun flex, a heavy duty coupler and can work continuously for 25 minutes.

The Alemlube EL Series G10040N 18V Lithium-ion cordless grease gun goes anywhere, securely contained in the convenient carry case, delivering high volume, high pressure trouble-free greasing.

Also available G10044N - 400g

SPECIFICATIONS, FEATURES AND BENEFITS

- 1 Heavy duty carry case supplied standard
- 2 Light weight at just 4.0kg
- 3 Air bleed valve assists when air pockets occur
- 4 High flow check valve with easy access port
- 5 Optimised air flow to maximise motor cooling
- 6 1/8" NPT 106cm long grease gun flex (up to 10,000psi working pressure)
- 7 High torque 18V motor
- 8 Convenient attachment for optional carry strap
- 9 2 x 18V Lithium-ion batteries included (1500mAh & 3000 mAh)
- 10 Fast charger
- 11 Industrial quality 4 jaw grease coupler
