HR40040

Air Hose Reel

The Alemlube EL Series HR40040 air hose reel is a quality hose handling, retrieval and storage system with highly flexible and durable hybrid polymer hose, crimped hose ends, integral carry handle and detachable mounting bracket enabling 180° hose reel rotation. Manufactured from high density impact resistant and UV stabilised polypropylene, the HR40040 features a positive latching system that automatically locks the hose at the desired length and the heavy duty internal spring assembly easily retrieves the hose when partially or fully extended.

Suitable for use in the agricultural, automotive, manufacturing, contractor and transport sectors, the HR40040 air hose reel is ideal to use with drills, impact wrenches, angle grinders, ratchets and tyre gauges.

Mountable on the wall or ceiling, the EL Series HR40040 is engineered to go the distance even when put to work in the most demanding applications.

PRODUCT SPECIFICATIONS, FEATURES AND BENEFITS

High quality impact and UV resistant polypropylene covers

Supplied complete with 15m x 12mm ID hybrid polymer hose and 0.9m lead in hose

1/2" BSP(M) inlet and outlet threads

Highflow swivel and fluid path

Max. Working pressure of 300psi (20bar)

Automatic and positive latching system

Hose guide system rewinds the hose without kinks

Constant speed control device ensures safe and accurate rewinding

Detachable steel mounting bracket enables 180° hose reel rotation

Convenient carry handle facilitates portable use

Can be wall or ceiling mounted
