

O30080

Electronic Oil Meter

June 2021

The Alemlube EL Series O30080 Electronic Oil Meter is a cost effective solution for all your intermittent or seasonal oil transfer and metering work.

The meter of this easy to use control valve features a 5 digit liquid crystal display, a low battery indicator in addition to Rest and Move buttons.

Accurate to the second decimal place, the meter is powered by one easily and quickly replaceable 3V CR2 battery with an expected working life of around 8 years corresponding to approximately 500,000 litres.

The EL Series O30080 Electronic Oil Meter is the result of well developed smart design, has a comfortable ergonomic grip, is therefore easy to operate and features a lock on device for your convenience.

Best of all is the low cost of ownership of this dependable digital oil meter with the added advantage of knowing that if ever required, spare parts are readily available and is ideal for small to medium size workshops moving low to medium volumes of oil daily.
