January 2017 Update

SW500N Water Hose Reel

The upgraded Alemlube SW500N water hose reel is a genuine industrial quality hose handling, retrieval and storage system with highly flexible and durable polyurethane hose, crimped hose ends, integral carry handle and detachable heavy duty mounting bracket.

The SW500N covers are manufactured from high quality impact resistant and UV stabilised polypropylene and the reel features a positive latching system that automatically locks the hose at the desired length. The robust internal spring assembly easily retrieves the hose when partially or fully extended.

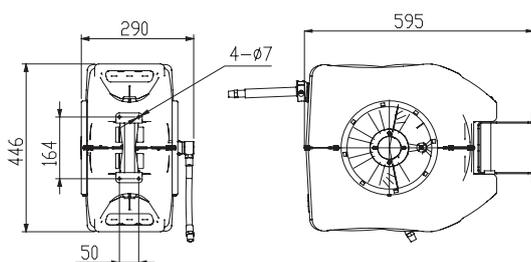

Sure to provide you with a reliable & cost effective means of storing and retrieving water hose assemblies in your workshop or service station, the SW500N water hose reel can be wall or ceiling mounted to suit your specific application and the detachable mounting bracket facilitates a 180° swivelling action and provides ease of reel mounting & storage.

Suitable for use in the agricultural, automotive, manufacturing, contractor and transport sectors, the SW500N water hose reel will go the distance even in the most demanding of applications. Working temperature -20°C~60°C.

PRODUCT SPECIFICATIONS, FEATURES AND BENEFITS

- Impact resistant UV stabilised covers for maximum durability
- 18m x 12mm ID hose & 0.9m lead in hose
- 1/2" BSPT inlet/outlet
- Maximum working pressure of 180psi (12.4bar)
- Working temperature range of -20°C to +60°C
- Polyurethane hose provides years of trouble free operation
- Automatic and positive latching mechanism
- Two-piece hose stop enables quick & easy hose length adjustment
- Can be mounted on the wall or ceiling
- Adjustable spring tension & high flow swivel and fluid path
- Detachable steel mounting bracket enables 180° hose reel rotation
- Ideal for workshop and service station forecourt use
- Lightweight at just 10kg
