

**Donaldson Delivers**

# **Engine Air Replacement Filters**

for Mann+Hummel® Europiclon® Air Cleaners

Mann+Hummel® and Europiclon® are registered trademarks of Mann+Hummel®

The New Standard

## Superior performance and proven protection for heavy duty diesel engines

Donaldson's new line of high efficiency air filters may look a little different out of the box, but they're specially designed to fit Mann+Hummel® Europiclon® air cleaner housings used in both on- and off-road applications.

This filter's unique sealing system incorporates specially designed teeth that compress to cushion and hold the filter in the ideal position, providing a secure seal – even in the most severe environments.

### Packed with proven technology

Equipped with Donaldson's industry-shaping RadialSeal™ system, advanced media and stable structural support, these new air intake elements are built to perform and provide effective engine protection, in a wide-range of challenging conditions.

Old

**New Appearance.  
New Design.**

**Donaldson invented air filters for heavy-duty engines – now it offers a new and improved heavy-duty design for Europiclon® air cleaners.**

New

# Advanced technology delivers complete engine protection

## Vibration Resistant

Innovative Dual Compression saw-tooth design incorporates an inventive combination of soft and hard urethane that generates high levels of compression –

maintaining secure RadialSeal integrity. Filter resists movement (even under heavy vibration) and delivers sure sealing under the most severe duty conditions.

### High-efficiency cellulose media

Offering media options specifically designed to perform across a wide range of heavy-duty diesel engine applications. Flame-retardant media in UL Recognized filter elements are available for transportation applications.

### RadialSeal™ design

Proven sure-fit Donaldson sealing system creates a reliable, vibration-resistant interface between the air cleaner and the filter. Slides easily on and off the outlet tube during servicing, making removal and replacement fast and simple.

### Rigid structural support

Rigid structural support system (outer or inner liners) protect filters from damage or collapse in humid conditions or heavy vibration applications. Structure also protects the media from damage during servicing.

## Donaldson Aftermarket Filter Warranty

### YOU HAVE A CHOICE

You can always choose top-quality Donaldson filters designed specifically for your engines and equipment and – as long as you change them according to the engine manufacturer's recommendations – using Donaldson filters will not void your engine manufacturer's warranty.

See Brochure F116082 for complete warranty details on all Donaldson products.

## Why Donaldson

### Broad product offering for heavy on-road engines

- ▶ Light to heavy particle filtration
- ▶ Filtration solutions for new equipment
- ▶ Replacements for in-use equipment
- ▶ Wide variety of accessories

### Proven technology

- ▶ PowerCore® systems
- ▶ Ultra-Web® nanofiber technology
- ▶ Pleatloc™ media spacing
- ▶ Radial seal housings
- ▶ Donaldson Endurance™
- ▶ Single & two-stage filtration
- ▶ Pre-cleaners & inlet hoods
- ▶ Filter indicators & gauges

### Lasting quality & value

- ▶ Quality & environmental management practices
- ▶ TS & ISO Certified
- ▶ Durable products that protect engines and control maintenance costs

### Readily available

- ▶ Stock Product
- ▶ Ship orders same day received local availability through distributors and OE dealers

### Single filtration source

- ▶ Donaldson has air, lube, fuel, coolant, hydraulic, transmission filters for all vehicles from pick-ups and SUVs to mining haul trucks and airplanes!

### History of innovation

- ▶ Established as a filtration company in 1915
- ▶ Over 1500 active patents worldwide
